A Caregiver's Tool Box

Caregiving is a series of attitudes & behaviors that are learned over time. The toolbox for a caregiver is filled with a variety of skills. Below are some of the items found in a caregiver's tool box.

COMPASSION: Jesus was filled with compassion when He ministered. Compassion is kindness in action. It is a way of relating to one another on a caring level.

KINDNESS: Kindness is a characteristic of the Spirit. D.W. Williams & Willie Williams each lived to be 105 years old. They were married for 82 years. They said the secret to a long marriage was being nice to each other. That's pretty good advice.

PRAYER: Praying for someone is to place them in God's hands. We provide the care & God provides the cure. Not only do we tell people we will pray for them, we can actually follow through & pray for someone.

SAY A BLESSING: When we bless someone, we say good words about them & to them. We all desire to hear good words. Compliments can really make a person's day. Saying good words will have a ripple effect on those around you.

A CUP OF COLD WATER: Jesus talks about the importance of doing little things to let people know you care. In Matthew 10:42 He mentions giving a cup of cold water to someone who is thirsty as an act of caregiving. Little acts of kindness help make to fill our days with a sense of being loved & belonging.

Using these tools regularly is something we all can do to brighten our corner of the world.
